

1842 HANCOCK COUNTY TAX RECORDS

Lyman D. Platt

One of the weaknesses of the 1842 census is that it does not include the county area surrounding Nauvoo. Most of the membership of the church was living in the county and in surrounding counties. As the main impact of the expulsion from Missouri diminished, families spread out to work where-ever they could, many moving hundreds of miles south, east and north, and some into Iowa. Thousands, however, stayed in Hancock County.

In August of 1842 a tax list was compiled for the property owners in the county. It is extremely valuable in showing the general disbursement of Church members throughout the county, the men who had died since February or were away, and the financial status of each family as indicated by the types of property being taxed. It is the best source for identifying large numbers of people next to the 1842 census. Having been taken just six months after the census it provides an ability to make comparisons.

The original tax list, above, is a listing of the heads of household, an evaluation of cattle, horses, wagons, clocks, watches, money loaned, stock in trade, other property not enumerated, personal property, and a coord. description of the property. File - 20 Aug 1842. Film 007,706, 5th item, pp 163-236.

Other tax records prepared in 1842 give property locations. These can be used with property records and the censuses of 1840 and 1842 in reconstructing the city demographically.
