Much has been said latterly against the use of *Calomel* as medicine. The real science of medicine, like the sun under a thick cloud, is shrouded in a set of unintelligible terms, and may grope and die. We will not say that he that gives *Calomel* murders, nor he that takes *Calomel* commits suicide, but we will say, if God and the Governor are willing, that he that uses the *least* medicine, lives *longest*, in nine cases out of ten.

## REMEDY FOR FILMS ON THE EYE

A correspondent of the New England Farmer gives the following receipte for removing *films* from the eyes of animals, of the efficacy of which we have no doubt. Several years since a son of ours had *films* on his eyes, which we removed by dropping a small portion of molasses on his eye-lids when asleep, for three or four nights in succession. He was so restless, and resisted the

application so resolutely when awake that we had to avail ourself of the opportunity offered by his slumbers to apply the remedy. --Am. Farmer.

*Films*--Perhaps all your readers do not know the easiest, as well as most effectual remedy for removing a *film* from the eye of an animal. It is simply to put a tea-spoonful of molasses on the eye ball. I have releived [sic] oxen, horses, and sheep in this manner, and know of no other equal to it.

#### HISTORICAL MARKERS

During the last month, three new historical markers have been placed at Mormon sites surrounding the Missouri River. The markers were provided by the Church of Jesus Christ of Latter-day Saints in Salt Lake and placed by Eagle Scouts.

One marker is in the area of the Grand Encampment, the first headquarters of Brigham Young and the Camp of Israel. This marker is near a new and developing scenic nature trail, lake with a bridge, and a windmill. It is found directly south of Highway 92 and east of Highway 275/375.

Another marker stands at the northeast corner of Kanesville Park, the site of the Kanesville Tabernacle replica. The area for the park has been cleared and landscaping has begun.

The last marker is at the east entrance to Fairview Cemetery in Council Bluffs. It is dedicated to the Kanesville Cemetery and explains that Fairview Cemetery is actually two cemeteries in one. In 1863 it was converted from the Mormon Kanesville Cemetery to the City Cemetery, later given the name of Fairview Cemetery.
