The brethren of the Block House Branch, are requested to make a general turn out on Thursday, the 1st day of March for the purpose of getting wood for the widows and fatherless. They will assemble at the Tabernacle as early in the morning as consistant, with their teams and axes. They are further requested to bring in their tithing in such articles as they have to the Tabernacle on Saturdays in each week, that the needy and destitute may have their wants supplied, and their hearts be made to rejoice. The Saints know their duty in this respect, and it is hoped and believed that they will act promptly that they may be blessed. Feb 21, 1849 To Emigrants

Emigrants to this place, by the Missouri River should land at Council Point, some three miles above Trading Point of Bellevue. Charles Bird resides there--and to him should our friends make application for information immediately on landing. This is the most eligible point on the river for the accomodation of emigrants to get removed to their friends in the various settlements in this region, and also the nearest point to this [Kanessville] place.

Feb 21, 1849 INDIAN TERRITORY

The past winter has been unusually protracted and severe in this part of the country. Everything much exposed to its influence has had its capacity to endure its blighting way severely tested.

Several Indians have been heard from on the Plains, who have fallen victim to the severity of its grasp. The Omahas have lost nearly if not quite all, their horses. A part of the tribe is now encamped somewhere on the Horn [Elkhorn River]; they are in a state of great privation and suffering, and have been obliged to kill their dogs for food.

Feb 21, 1849 Our citizens are particularly cautioned not to haul timber, rock, or any old buildings from Winter Quarters, neither in any way trespass upon the Indian lands west of the Missouri River. The organization of our county, we believe, is sufficiently strong to check any such trespass, and Major Miller, the Indian Agent, will be very likely to put the law in force against all persons who may thus break over their legal bounds.

Jun 27, 1849 ROADS

The Roads in Pottawattamie county are so completely blockaded by fences that there is hardly room enough left for a passage to Heaven. It is proposed that a committee of three persons be appointed, one from Carterville, one from Knesville, and one from Big Pigeon, to examine and determine the most feasible route for a public road leading from the prairie south of Carterville through the latter place, passing through or near Kanesville and extending up the Tabernacle hollow to Little and Big Pigeon.

Sep 5, 1849 SATURDAY LAST was one of the happiest days of our life. To see three schools meet at the Tabernacle, one from Council Point, taught by Mr. Brown and two at this place, taught by Mr. Grant and Mr. Poulterer, and undergo a rigid examination, after forming into ranks about a quarter of a mile distant, and marching to the place after a splendid band of music, with beautiful banners and various appropriate inscriptions thereon, was gratifying beyond description. A fine dinner for about two hundred scholars was prepared in front of the Tabernacle, and also for spectators. Several short but most happy orations were delivered; and then to hear some of the little misses but just out of their mothers' laps, walk into the dissection and analysis of the compound personal and relative pronouns without confusion or embarrassment, and then to hear a whole school sing off the names, boundaries and capitols of every country on the globe in regular time, was gratifying to the extreme. We sometimes laughed for joy and sometimes wept for joy during the exercises and performances of the day.

Sep 5, 1849 WHAT NEXT?

We shall now have to depend entirely upon our own resources for news; by an order from the Postoffice Department, we are not likely to get any more by Uncle Sam's mail line. We learn that the Southern mail that generally comes here has been suspended, and that the Fort Desmoines mail does not seem to come at all. It has not been here for more than a month. We shall be under the necessity of sending all our paper mail nearly 150 miles at our own expense, as we have heretofore done, to get our paper to subscribers. Although the Government has established a weekly mail route from this place to Fort Desmoines, it has not been here but three times since it was established, which is now over three months.

This Ferry chartered by the Legislature of the State of Iowa and licensed by the Superintendent of Indian Affairs, has been in successful operation for the last year. We are now prepared with good boats and experienced watermen to cross emigrants with safety and despatch. The location and facilities of this crossing are too well known to require a description at our hands. The fact of its being under the eye of the *Agent* and approved by the Indians to whom we make Semi-Annual payments for the privilege of having a road through their country, ensures their good will towards the Emigrants. The North side of the Platte river is now acknowledged to be the Healthiest, Nearest and Best route to the gold mines. We can cross at Council Bluffs, one hundred or more teams per day, having three good boats.
